- C. Director of Technology: Mr. Shearer submitted the following report

Technology Board Report

11.21.17

1. ISTEP infrastructure Trial- At the beginning of the month we ran through an infrastructure trial to check that setup and functionality of Western network and iPad configuration. We were able to run practice tests successfully with little issues on student iPads.

2. Internet Contract Erate - We are currently working on ERATE for the 2018 - 2019 school year. The state of Indiana has changed the way schools bid for internet access. This process could help reduce the amount the school pays currently for internet we currently pay approx \$3,500 a month for internet.

3. PC replacements -With cost savings over the last year we were able to purchase 81 new PCs this fall. This will allow us to slowly begin to replace teacher computers in classrooms that are approaching 12 years old. When dealing with computers 12 years old parts and repairs are very difficult. Teachers still use desktops for daily tasks (lesson prep, grading, communication, other critical classroom functions). After evaluating the teachers computers we will look at student stations and try to age out all computers that are 10+ years old.

4. For the fourth year in a row we were awarded the summer of elearning conference grant from the IDOE in partnership with Northwestern, Eastern, and Taylor. The conference will be hosted at Taylor School Corp the second week of June. We will again be focusing on technology integration into classrooms with a keynote speaker and many break out sessions.

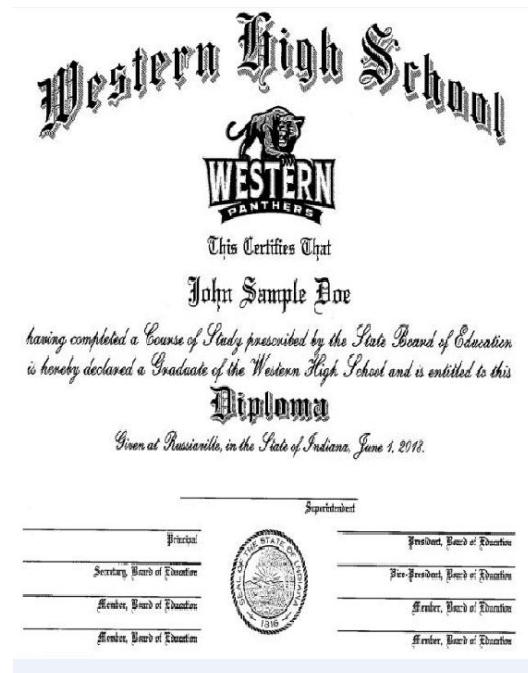

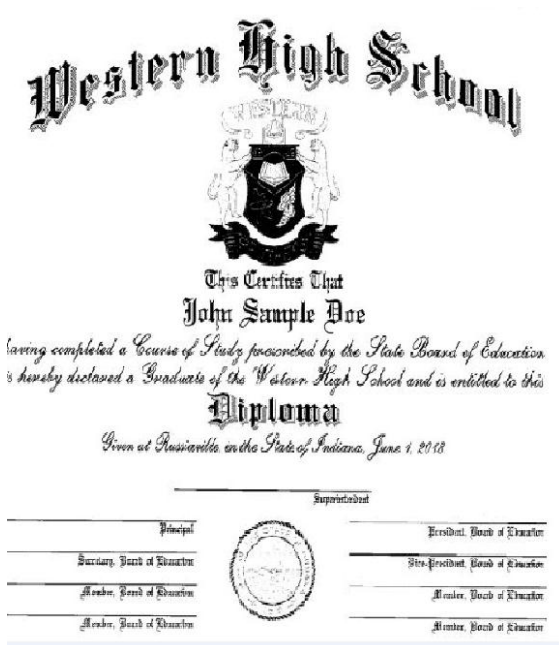

D. Assistant Superintendent Report - Dr. Hendrich had nothing to report for the month.

Randy McCracken
Superintendent
Western School Corporation
2600 s. 600 w.
Russiaville, IN 46979

Dear Mr. McCracken

The W.E.A., as the exclusive representative of school employees in the Western School Corporation, is committed to meeting every responsibility provided by IC 20-29-6. It is believed that the School Corporation also wants to meet all responsibilities of IC 20-29-6. This statute charges both parties with the responsibilities to engage in collective bargaining under Section 4 and to engage in discussion under Section 7. Whatever the practices of the Association and School Corporation may have been in the past, we think it is critically important for each of us to meet all of our obligations in the future. If the Association has acquiesced in any unilateral action of the School Corporation, it is our intention to no longer acquiesce.

IC 20-29-6-7 spells out the mandatory subjects of discussion and are listed here:

Sec.7. A school employer shall discuss with the exclusive representative of certificated employees the following items:

- (1) Curriculum development and revision.
- (2) Selection of curricular materials.
- (3) Teaching methods.
- (4) Hiring, Evaluation, promotion, demotion, transfer, assignments, and retention of certificated employees.
- (5) Student discipline.
- (6) Expulsion or supervision of students.
- (7) Pupil/teacher ratio.
- (8) Class size or budget appropriations.
- (9) Safety issues for students and employees in the workplace, except those items required to be kept confidential by state or federal law.
- (10) Hours
- (11) Funding for a plan for a remediation program for any subset of students enrolled in kindergarten through grade 12.
- (12) The following nonbargainable items under IC 20-43-10-3.5:
 - (A) Teacher appreciation grants.
 - (B) Individual teacher appreciation grant stipends to teachers.
 - (C) Additions to base salary based on teacher appreciation grant stipends.
- (13) The pre-evaluation planning session required under IC 20-28-11.5-4.
- (14) The superintendent's report to the governing body concerning staff performance evaluations required under IC 20-28-11.5-9.
- (15) A career pathways and mentorship plan established under IC 20-20-42.2.

All items listed in Section 7 must be discussed with the Association's appointed discussion team. If discussion has been conducted through committees in the past, the Association no longer agrees that committees satisfy the discussion obligations under Section 7. All discussion from this point forward must go through the Association discussion team.

The Association requests that you familiarize principals with the responsibilities imposed on the School Corporation and Association by IC 20-29-6-7. They need to be aware that all discussion must go through the Association discussion team and not through building committees to meet the parties' obligations under Section 7.

If there is any question during the year as to whether the Association regards a matter as discussible, I request you contact me and I will respond promptly.

Your assistance is appreciated. We look forward to continuing to work with you.

Sincerely,

President, W.E.A.
